

Patient, Facility, & Caregiver Benefits

- *Tilt and recline provides ease of use for frequent repositioning*
- *Design provides safety and stability helping to reduce risk of injury*
- *Proper seating alignment decreases postural deviations reducing the use of restraints*

Posterior tilt aids in pressure redistribution

Tilt with semi-recline accommodates hip flexion limitations, allowing patients to be out of bed

Optional contracture sling accommodates various levels of knee contractures

Comfort Tension Seating[®] improves postural support and sitting tolerance

Essential Positioning & Peace of Mind
