

Patient, Facility, & Caregiver Benefits

- Increases quality of life and engagement with surroundings
- Promotes safe patient handling with enhanced positioning
- Proper seating alignment reduces patient fatigue and discomfort

Tilt and recline functionality provide pressure offloading.

Front-pivot seat tilt maintains a forward line of sight, enhancing engagement.

Adjustable upper lateral supports fit a variety of users.

Solid seat pan provides support for a variety of cushions.

Shown with rear 20" mag wheels and **matrix** PS Cushion

Dynamic positioning throughout rehabilitation
